13 The Municipality ought to be able to undertake the responsibility of paying the whole of the maintenance charges for the water supply, namely, Rs. 3,250 instead of only half of it. There appears to be no reason why the Dt. Board should continue to bear any portion of the charges, particularly when the finances of the Municipality are fairly good.

Enclosure No. 2

Sir,

Adverting to your letter No.L.1215 L.B.6-21-2 dated 31st August 1921 calling for the views of the Municipal Council of Harihar on the Proposal of the Chitaldrug District Board to have their liability to the further payments of the annual contribution towards Harihar Water Works cancelled, I have the honour to state that the Municipal Council of Harihar to whom the question was refered for opinion have resolved that the finances of the Municipal Council are not in a satisfactory condition to bear the maintenance charges of Water supply in full and the District Board grant may therefore be continued for some years to come.

It might be in consideration of the poor finances of the Municipal Council that the obligation was imposed on the District Board in the year 1907. But the finances of the Municipal Council have improved since and in view of its increas-

increased resources it has also been constituted as Town Municipal Council. Its resources cannot be too poor to meet the charges of water supply in full as stated by the Council. An examination of the Municipal Budget will show that the increase in the revenue of the Municipal Council is keeping pace with the increased expenditure and the Municipality can altogether rest on its own resources in the present case. Whatever might be the original consideration for imposing the obligation on the District Board, the present financial condition of the Board does not justify the continuance of the grant any longer. Moreover charges for the maintenance of water supplies in the Municipal limits are not legitamately expenses to be born by the District Board even on the plea of low finances of municipal Councils. The District Board should be relieved immediately of the fixed item of expenditure which they now meet towards Harihar Water Works as a practical method of augmenting their resources. In these circumstances the Board have finally resolved in their meeting held at Harihar on the 23rd March 1922 to discontinue the grant (Vide copy of the resolution of the Board attached).

I accordingly recommend that the resolution of the Board may kindly be sanctioned early.

Copy of the resolution of the Municipal Council is also enclosed herein for reference.
